

## 4-Port 10G Optical Input Board (4K@300m (K1, MM) / 10km (K2, SM)) VM7584 / VM8584

- The VM7584 4-Port 10G Optical Input Board and VM8584 4-Port 10G Optical Output Board offer an easy way to route 4 HDMI sources to HDMI displays through optical extenders, and up to 16/32 input and 16/32 output connections on an ATEN Modular Matrix Switch through various AV interfaces.

Designed with fiber optics technology for long-distance transmission, the VM7584/VM8584 along with its SFP+ modules extends uncompressed 4K signal up to 300 m (using VM7584K1/VM8584K1) or 10 km (using VM7584K2/VM8584K2) over duplex fiber optic cables. The optical fiber simplifies cabling by guaranteeing an interference-free long-haul transmission of audio, video, IR, and RS-232 control signals over one single set of duplex cables that easily connects to the SFP+ slot. Moreover, the VM7584/VM8584 supports a high data rate of 10.2 Gbps and meets HDMI Specifications that include 3D, Deep Color, and 4K to ensure superior video quality.

The ATEN VM input/output boards are hot-swappable which gives system integrators great flexibility and efficiency for installation and maintenance. The ATEN VM input/output boards along with ATEN Modular Matrix Switches offer ideal solutions that perfectly meet your demands for scalable video-critical applications.
