

Cut-Out Template for the Extron TLP Pro 300M

Page size: 8½" x 11"
Print scale 1:1
Do not shrink.

For complete installation instructions, see the *TLP Pro 300M Series Setup Guide* (available at www.extron.com).

- 1. Confirm the product to be installed.**
- 2. Before printing, double-check the print settings and make sure the page is not scaled.**
- 3. After printing, measure the cut-out area (gray) and ensure the dimensions are the same as those shown.**
- 4. Cut along the red line to remove the surface cut-out area (gray) from the template.**
- 5. Mark the position on the mounting surface where the TLP Pro 300M is being installed.**
- 6. Double check dimensions and position, then cut the opening.**

A and B mark the positions of mounting screws. These are only required if toothed clamping plates are used for mounting (see the "Mounting" section of the *TLP Pro 300M Series Setup Guide*, available at www.extron.com).
